Robin Irving
Clinic Assistant Manager

Before working for Lake Area Medical, Robin worked for St. John's as a Patient Service Representative in 2012. Then, in 2013, she was hired for the same position at Lake Area Medical. She then was transferred to the Referral Coordinator position and then transferred to the Scribe position for Heather Maxwell. Finally, in October of 2018, she became our Clinic Assistant Manager and now has a total of 5 years of experience with our organization!

"I absolutely love working for Cleveland Area Hospital," Robin tells us, "I love that we have the opportunity to have a hospital in our small, thriving town." Robin often envisions the bright future our growing hospital and clinic can help bring to our town.

"My most favorite thing of all though; MY TEAM! I work with an awesome team. I believe that to enjoy your job you have to love the people you work with. I absolutely love this group and love coming to work every day. " Robin also enjoys seeing how much care and love comes from our team and their commitment to serving the community.

Robin jokes, "Free time? What's that?" However, she does enjoy spending time with her three children, aged 15, 11, and 4, and her husband. She also loves lazy days spent watching TV and drinking coffee.

Nathan Langford
Financial Analyst

Four years ago, Nathan Langford began his career as a Financial Analyst with Cleveland Area Hospital. We are very lucky to have him and honored that he began his journey with us!

Nathan has found while working with our organization that, though we are participating in a complex and challenging market, we are still finding ways to grow and succeed! Watching our organization push past expectations and continuing to find success has helped him to develop an outstanding love for our team and organization. Our future holds a great deal of growth and success and Nathan is eager to see what we can do!

Not only is Nathan very smart and great at what he does, he enjoys it as well! He finds that making sure everything adds up and makes sense is something he loves to do.

In his free time, Nathan loves spending his days in the sun out on the lake as well as enjoying time with friends.

This week, we're celebrating

Health Information Professionals

Ensuring quality care through quality data.

Cleveland Area Hospital

March 24th-30th, we are celebrating our Health Information Professionals. Each department plays a vital role in our organization and we are proud to have this wonderful team of people with us.

Health Information Professionals' high-quality data management is so much more than just 'data'. They are responsible for the connection between our caregivers and patients, ensure health records are complete and secure and are absolutely vital to the everyday flow of our organization.

Without the work of our HIP's, Teresa Heskett, Tonya Hall, LaDonn Kennedy, Lois Ware, Tracy Dameron, Diana King, Tiffany Cheek, Joyce Collins and Alana Morrison, we would not be able to provide the high quality of care that we do today. Thank you all so much for the work you do and your dedication to patient care. We appreciate each and every one of you!

24/7 Radiology

Cleveland Area Hospital offers a highly qualified team of radiology professionals with a combined total of over 80 years of experience! Our 24/7 radiology department offers a number of services such as Digital X-Ray, 64-slice C.T. Scan, M.R.I., Ultrasound, Dexa Scan and Echocardiogram. Soon, we will also be offering 3D Mammography!

Our radiology team is managed by Holly Fitzpatrick and includes Sharon Bartley, Steven Hancock, Nick Jenkins, Tammie Levin, Will Morton, Jamie Petrunak, Debbie Smelser, Rhonda White and Chris Vargas.

Our radiology team is not only qualified and great at their work, but they are also passionate about patient care. Tammie, an ultrasound technician who has been with us exclusively for three years and even partnered with us via a mobile unit for years before that, describes the best part of her job as "It's the people. Being a part of this community and being able to positively affect their lives is wonderful, as are the people I get to work with."

Many of our radiology team members have been working together for many years, even before they came to Cleveland Area Hospital. Debbie, who has been with us for nearly 6 years, describes working with her crew as very enjoyable, "we are all very close and it definitely feels like a family," and then joked, "but without the drama!"

Holly raves about her radiology team, "they are the strongest, most compassionate, trustworthy and empathetic people you will ever come into contact with. I can, and have, trusted them with my life."

We are grateful and proud of our radiology department and the services we are able to offer to rural communities.

For more information about our radiology services, call 918-358-2501 ext. 4703 or visit our website at https://www.clevelandareahospital.com/radiology

The wait is over... 3D MAMMOGRAPHY

Digital breast tomosynthesis, also known as 3D mammography, is a great advancement for hospitals everywhere. With breast screenings recommended annually beginning at the age of 40 for women everywhere, it is crucial for Cleveland Area Hospital to stay up-to-date with the newest technology. We understand the highest accuracy, along with earliest detection possible is important to you.

On Friday, March 29th, we began scheduling 3D mammograms! Holly and Debbie, our mammography technologists pictured to the left, offer over 25 years of experience. We are proud of these women and their ability to make your mammography appointment as comfortable and pleasant as possible.

We are beyond excited to offer this service! Cleveland Area Hospital is committed to our continued growth and providing access to quality, compassionate care close to home. Our success wouldn't be possible without our supportive community and amazing staff, thank you all!

Call 918-358-2501 Ext. 4702 for more information!

Scheduling appointments now!

1 in 8 women will develop invasive breast cancer in their lifetime.

85% of women diagnosed with breast cancer have *no family history.*

BEGIN YOUR ANNUAL SCREENINGS AT THE AGE OF **40**

When breast cancer is *found and treated early,* the five-year survival rate is **98%**

More than **2.8 MILLION** breast cancer survivors currently reside in the U.S.

WHAT IS 3D MAMMOGRAPHY?

A 3D mammogram consists of multiple x-ray images of the breast. These images are displayed as a series of slices that can be viewed by our technologists as single images or an interactive animation.

During a mammogram, one of our specially qualified technologists will position the breast in our mammography machine. The unit then uses an x-ray arm to sweep over the breast, taking multiple images in a matter of seconds. Patients typically experience minor, to no discomfort at all.

HOW DO I PREPARE?

- Avoid using deodorant, powder, cream, lotion, or perfume under your arms or on your breasts. This could show on your mammogram.
- Wear a two-piece outfit, as your top will be removed. You will be given a gown to wear.
- Try not to schedule your appointment during or before your period, as your breasts could be tender.

Cleveland Area Hospital's Director of Nursing, Katie Walker, performed free blood pressure checks, and gave a presentation over the importance of heart health during their monthly Outreach program at the Pawnee Senior Citizens Center on February 26th. Every first Thursday at 11:30 AM, CAH's Tammy Lowery focuses on delivering different topics related to health, focusing on key issues related to senior citizen health such as diabetic nutrition, heart health, exercise, and much more. Education and building community relationships within our region is the mission for Cleveland Area Hospital's Outreach Program. Maintaining the health and well-being of seniors, fostering positivity and pro-active measures, support and protection are at the heart of each visit. Cleveland Area Hospital continues to provide exceptional healthcare right here close to home as an independent, self-managed, non-profit critical access hospital that is governed by a board of trustees comprised of local county members.

Call 918-358-2501 ext. 4617 for any questions, or check out www.clevelandareahospital.com to further explore the services available.
